### Overview

- 1. Monitor (sold separately)
- 2. 2-Button Scroll Mouse
- 3. 2004 Standard Keyboard
- 4. Front IO: 2 USB 2.0, IEEE-1394 (requires optional PCI card to enable), headphone and microphone
- 6. Three 5.25" external bays (3rd external is not full depth), and two 3.5" internal bays

- 7. 4 PCI slots, 2 PCI Express x1 slots
- 8. 1 PCI Express x16 Graphics slot
- 9. Rear IO: 6 USB 2.0, 1 standard serial port, 1 optional serial port, 1 parallel port, PS/2 keyboard, PS/2 mouse, RJ-45, audio in, audio out, mic in
- 10. Intel® Pentium® processor, some with EM64T extensions
- 5. One 3.5" external bay for optional diskette drive or other 3.5" 11.410 watt (continuous) power supply

### At A Glance

### Overview

- Intel® Pentium® processor with Hyper-Threading Technology
- Choice of operating systems:

Microsoft Windows XP Professional,

Microsoft Windows XP Professional, x64 Edition

Red Hat Enterprise WS 3,

HP Installer Kit for Linux (see http://www.hp.com/workstations/software/linux/ for details)

- Support for future Intel® Extended Memory 64 Technology (EM64T) processors
- Intel 925X Express chipset
- Integrated HP Gbit LAN by Broadcom
- 800 MHz processor front side bus
- Convertible and tool-less minitower chassis
- 3 PCI-Express slots/4 PCI slots
- Dual channel DDR-2 memory at 533 MHz
- Four channel SATA Controller with RAID 0 or 1
- SoundMax Digital AC97 integrated audio with internal speaker
- Pre-loaded Manageability tools
- Protected by HP Services, including a 3-3-3 standard warranty. Terms and conditions vary by country. Certain restrictions and exclusions apply.

### Standard Features - Custom Components

### Processor and Speed – One of the following

### All processors feature Hyper-Threading Technology

Intel® Pentium 4 Processor 2.80 GHz, 1 MB/800 MHz FSB

Intel® Pentium 4 Processor 3.00 GHz, 1 MB/800 MHz FSB

Intel® Pentium 4 Processor 3.20 GHz, 1 MB/800 MHz FSB with EM64T

Intel® Pentium 4 Processor 3.40 GHz, 1 MB/800 MHz FSB with EM64T

Intel® Pentium 4 Processor 3.60 GHz, 1 MB/800 MHz FSB with EM64T

Intel® Pentium 4 Processor 3.80 GHz, 1 MB/800 MHz FSB with EM64T

This workstation will support Pentium 4 processors with Extended Memory 64-bit Technology as they become available from Intel

### Operating System – One of the following

Microsoft Windows XP Professional

Microsoft Windows XP Professional, x64 Edition

HP EM64T Transition Tool Kit

Red Hat Enterprise Linux Workstation 3 Update 2 (32-bit available as pre-load, 32 & 64-bit available as an After Market Option)

HP Installer CD for Red Hat Linux 7.2, 7.3 and WS 3 Box Set (32bit and 64 bit)

See http://www.hp.com/workstations/software/linux/

Click on "Hardware support matrix" under "Related links" for details.

NOTE: Although HP Personal Workstations can be ordered with the HP Installer Kit for Linux and an IEEE 1394 card, HP cannot provide customer support for this configuration. Please refer to the Linux Hardware Support Matrix (<a href="http://www.hp.com/support/linux\_hardware\_matrix">http://www.hp.com/support/linux\_hardware\_matrix</a>) for details, and to the Linux User Manual (<a href="http://www.hp.com/support/linux\_user\_manual">http://www.hp.com/support/linux\_user\_manual</a>) for tips on user-enablement of the IEEE 1394 Card.

### 1st Hard Disk Drive – One of the following

	Windows XP	Red Hat Linux
40 GB 7200 rpm Serial ATA drive	32-Bit, 64-Bit	7.2, 7,3, WS3
80 GB 7200 rpm Serial ATA drive	32-Bit, 64-Bit	7.2, 7,3, WS3
160 GB 7200 rpm Serial ATA drive	32-Bit, 64-Bit	7.2, 7,3, WS3
250 GB 7200 rpm Serial ATA drive	32-Bit, 64-Bit	7.2, 7,3, WS3
400 GB 7200 rpm Serial ATA drive	32-Bit, 64-Bit	7.2, 7,3, WS3
74 GB 10K rpm Serial ATA drive	32-Bit, 64-Bit	7.2, 7,3, WS3
73 GB 10K Ultra320 SCSI drive	32-Bit, 64-Bit	7.2, 7,3, WS3
300 GB 10K Ultra320 SCSI drive	32-Bit, 64-Bit	7.2, 7,3, WS3
36 GB 15K Ultra320 SCSI drive	32-Bit, 64-Bit	7.2, 7,3, WS3
73 GB 15K Ultra320 SCSI drive	32-Bit, 64-Bit	7.2, 7,3, WS3
146 GB 15K Ultra320 SCSI drive	32-Bit, 64-Bit	7.2, 7,3, WS3

Standard Features	- Custom Components		
2nd Hard Disk Drive –		Windows XP	Red Hat Linux
One of the following	2nd hard drive, 40 GB 7200 rpm Serial ATA drive	32-Bit, 64-Bit	7.2, 7,3, WS3

# Intel 925X Express chipset DDR-2 SDRAM ECC MEMORY

Only unbuffered DDR2 DIMMs are supported and must be either x8 or x16 width. It is not necessary to add memory in pairs. Memory upgrades are accomplished by adding single or multiple DIMMs of the same or varied sizes. This chart does not represent all possible memory configurations. The Intel 925X chipset supports ECC 533 MHz (PC2-4200) DDR-2 memory or non-ECC and ECC 400 MHz (PC2-3200) DDR-2 memory.

For best performance the total amount and type of memory loaded into Channel A and Channel B should be the same. If it is not, your computer will see all the RAM installed but will run the memory controller at a lower performance mode. For best performance add the memory in pairs rather than as a single DIMM (two 512 MB DIMMs will have better performance than a single 1 GB DIMM). Also, add the memory into both channels (e.g. one in socket 1 and one in socket 3) to take advantage of dual channel performance. If you have unused slots within a channel, make them socket 2 and socket 4. This provides the best margin for the memory bus.

### **CAUTION:**

Mixing speeds will mean that the memory runs at the speed of the slowest DIMM.

Do not mix ECC and non-ECC memory. The system will not boot if ECC and non-ECC DIMMs are mixed.

Do not mix single-sided and double-sided DIMMs. Both sides of a double-sided DIMM must have the same memory size. Each rank (side) of the DIMM must be the same size.

### MAXIMUM MEMORY

Supports up to 4 GB of DDR-2 SDRAM.

### POSSIBLE MEMORY CONFIGURATIONS

Not all memory configurations possible are represented below.

DIMM Size	Slot				
	1	2	3	4	
256 MB	256 MB

Additional Technical Specifications

PCI extender that connects	None
to System Board	

Cooling	
Chassis Fan	92 mm
Processor Heatsink Fan	70 mm
Power Supply Fan	92 mm

Power Supply	Within 230V			
Full Ranging Input (Line Select Switch)	Yes			
Active Power Factor Correction (APFC) (Input Current is nearly 1/2 a non-APFC PS)	Yes			
Passive Power Factor Correction (PFC)		No		
Operating Voltage Range		90 – 264 VAC/118 VAC		
Rated Voltage Range		100 – 240 VAC		
Rated Line Frequency		50-60 Hz/400Hz		
Operating Line Frequency Range		47 – 66 Hz/393 – 407Hz		
Rated Input Current		6.4A/6.4A		
Maximum Rated Power		410 Watt Continuous		
Heat Dissipation		Typical 737.1 btu/hr Maximum 1228.5 btu/hr		
Power Supply Fan		92mm variable speed		
PS Size	3.84 x 5	5.91 x 6.05 in (97.6 x 150 x 153.7	71 mm)	
Energy Star Compliant	Yes			
FEMP Standby Power Compliant (<2W in S5 - Power Off)	No			
Power Consumption in ES Mode - Suspend to RAM (S3) (Instantly Available PC)	2.5 W			
Surge Tolerant Full Ranging Power Supply	Withstands power surges up to 2000V			
Typical configuration power consumption	1 processor (1x 3.4 GHz), 1 GB memory (2 x 512 MB) Two hard drives (2xSATA 40 GB), CD-ROM drive PCI-Express Graphics Card (FX 1300) Floppy, Monitor			
	Input Power consumption	@ 120V	ac/60Hz	
	Typical operating mode (system busy)	216 W	= 737.1 btu/hr	
	Windows XP Idle	138 W	= 470.9 btu/hr	
	Standby mode (S3)	2.5 W	= 8.53 btu/hr	
	Hibernate mode (S4)	2.1 W	= 7.166 btu/hr	
	Power Off (S5)	2.1 W	= 7.166 btu/hr	

ROM Features	Description
Instantly Available PC	Allows for very low power consumption with quick resume time
(Suspend to RAM – S3)	
ROM Based F10 Setup	Review and customize BIOS settings
	Allows a new or existing system to boot over the network and download software, including the operating
via F12 (PXE) (Remote Boot	system
from Server)	
System/Emergency ROM Flash Recovery with Video	Recovers corrupted system BIOS
Auto Setup when New Hardware Installed	System automatically detects addition of new hardware
Serial, Parallel, USB, Audio, Network, Enable/Disable Port Control	Enable or disables serial, parallel, USB, audio, and network ports
Removable Media Write/ Boot Control	Prevents ability to boot from removable media on supported devices (and can disable writes to media)
Power-On Password	Prevents an unauthorized person from booting up the computer
Setup Password	Prevents an unauthorized person from changing the system configuration
Replicated Setup	Saves BIOS settings to diskette or USB disk-on-key in human readable file. Repset.exe utility can then replicate these settings on machines being deployed without entering ROM-based F10 setup
Memory Change Alert (Requires HP Client Manager Software)	Alerts management console if memory is removed or changed
Thermal Alert (Requires HP Client Manager Software)	Monitors the temperature state within the chassis. Three modes:  NORMAL – normal temperature ranges  ALERTED – excessive temperatures are detected. Raises a flag so action can be taken to avoid shutdown or provide for a smoother system shutdown  SHUTDOWN – excessive temperatures are encountered. Automatically shuts down the computer without warning before hardware component damage occurs
Master Boot Record Security	Detects changes to MBR and optional restoration, useful in protecting from viruses
Remote ROM Flash	Provides secure, fail-safe ROM image management from a central network console
Remote Wakeup	<ul> <li>System administrators can power on, restart, and power off a client computer from a remote location.</li> <li>Enables cost-effective power consumption when the administrator needs to distribute software, perform security management, or update the ROM</li> </ul>
ACPI (Advanced	Allows the system to wake from a low power mode
Configuration and Power Management Interface)	<ul> <li>Controls system power consumption, making it possible to place individual cards and peripherals in a low-power or powered-off state without affecting other elements of the system Supports ACPI 2.0 for full compatibility with 64-bit operating systems</li> </ul>
SMBIOS	System Management BIOS 2.3.5, previously known as DMI BIOS, for system management information

Other deployment &	
management features	

recnnicai Specificatio	115
HP Client Management Solutions	HP Client Management Solutions help simplify management of Workstations and significantly reduce total ownership costs. These solutions share a common design and are highly integrated due to the extensive work between HP and its partner Altiris.
	HP Client Manager Software is included free with all HP business PCs and Workstations. It enables central tracking, monitoring, and management of the hardware aspects of HP client systems:
	<ul> <li>Get valuable hardware information such as CPU, memory, video, and security settings</li> <li>Monitor system health to fix problems before they occur</li> <li>Install drivers and BIOS updates without visiting each PC</li> <li>Remotely configure BIOS and security settings</li> <li>Automate processes to quickly resolve hardware problems</li> </ul>
	Additional Altiris solutions (fee-based) are available to address Workstation management challenges through the entire IT lifecycle including:
	<ul> <li>Inventory assessment</li> <li>Software license compliance</li> <li>Personality migration</li> <li>Software image deployment</li> <li>Software distribution</li> </ul>
	<ul><li>Asset management</li><li>Client backup and recovery</li><li>Problem resolution</li></ul>
	Visit <a href="http://www.hp.com/go/easydeploy">http://www.hp.com/go/easydeploy</a> for more information, to download HP Client Manager Software, and to evaluate the Altiris solutions.
System Software Manager (free)	A free utility that detects and updates BIOS, device drivers, and management agent versions on your networked PCs and workstations
Replicated Setup	Saves BIOS settings to diskette or USB disk-on-key in human readable file. Repset.exe utility can then replicate these settings on machines being deployed without entering ROM-based F10 setup
Software Restore CD	Restores computer to its original factory shipping image
Asset Tag	<ul> <li>Repository for storing company-specific property asset numbers for easy tracking</li> <li>Initially set equal to the system serial number</li> <li>Stored in a protected section of non-volatile memory that can be accessed and modified with the F10 Setup program</li> </ul>
DIMM Serial Presence Detect	Detects whether or not memory DIMMs are present and their type
Hard drive serial number,	Hard drive manufacturer, model, and serial number is stored in the hard drive firmware and reported in ROM-based F10 setup
System serial number,	System serial number, model, & manufacturer stored in a non-volatile memory and can be retrieved with
model, & manufacturer	management SW or viewed in ROM-based F10 setup
ROM revision levels	Identifies system ROM revision levels and reports in ROM-based F10 setup Version is stored in an industry standard memory location (SMBIOS) so that management SW applications can use and report this information
System board revision level	<ul> <li>Allows management SW to read revision level of the system board</li> <li>Revision level is digitally encoded into the HW and cannot be modified</li> </ul>
Memory Change Alert (Requires HP Client Manager Software)	Alerts management console if memory is removed or changed

Ultra ATA Integrity Monitoring (CRC Checking)	A feature of SATA and SCSI, Cyclic Redundancy Checking provides data transfer verification and proactive notification of hard drive data transmission problems with recommendations for enhancing system performance. It detects all the following errors' types:
	<ul> <li>single bit errors</li> <li>double bit errors</li> <li>an odd number of errors</li> <li>error bursts up to 32-bits long</li> </ul>
Drive Self Tests (DPS)	<ul> <li>Drive Protection System (Adaptec and LSI SCSI controllers do not offer DPS)</li> <li>A diagnostic hard drive self test. It scans critical physical components and every sector of the hard drive for physical faults and then reports any faults to the user.</li> <li>Running independently of the operating system, it can be accessed through the computer's setup procedure. It produces an evaluation on whether the hard drive is the source of the problem and needs to be replaced.</li> </ul>
	The system expands on the Self-Monitoring, Analysis, and Reporting Technology (SMART), a continuously running systems diagnostic that alerts the user to certain types of failures  DPS Access through F10 Setup during Boot (F10 diagnostic access not available with SCSI drives)
SMART Technology (Self-Monitoring, Analysis and Reporting Technology)	Allows hard drives to monitor their own health and to raise flags if imminent failures were predicted Predicts failures before they occur. Tracks fault prediction and failure indication parameters such as reallocated sector count, spin retry count, calibration retry count.  By avoiding actual hard drive failures, SMART hard drives act as "insurance" against unplanned user downtime and potential data loss from hard drive failure.  SMART I – Drive Failure Prediction  SMART II – Off-Line Data Collection
	downtime and potential data loss from hard drive failure.  SMART I – Drive Failure Prediction

_	
Security Features	
Padlock support	Padlock loop in rear of chassis. Locks side cover and secures chassis from theft. (0.22" diameter)
Cable Lock Support	Kensington lock slot in rear of chassis. Locks side cover and secures chassis from theft. (3mm x 7mm opening)
Universal chassis clamp	Threaded feature in rear of chassis. Locks side cover and locks cables to chassis. Secures chassis from
lock support	theft and allows multiple units to be chained together when used with optional cable.
Solenoid lock and hood	Yes
sensor	
Rear port control cover (optional)	Locks rear IO cables to prevent cable theft.
Serial, Parallel, USB Enable/Disable	Enable or disable serial, parallel or USB ports and hide them form the operating system
Removable Media Write/	Prevents the computer from being booted from removable media on supported devices (and can disable
Boot Control	writes to media)
Power-On Password	Prevents an unauthorized person from booting up the computer
Setup Password	Prevents an unauthorized person from changing the system configuration

System Software Updating	
Product Change Notification	<ul> <li>Program to proactively communicate Product Change Notifications (PCNs) and Customer Advisories by email to customers, based on a user-defined profile.</li> <li>PCNs provide advance notification of hardware and software changes to be implemented in the factory providing time to plan for transition.</li> <li>Customer Advisories provide concise, effective problem resolution, greatly reducing the need to call technical support.</li> </ul>
Remote ROM Flash	Provides secure, fail-safe ROM image management from a central network console
Remote Wakeup/ Remote Shutdown	<ul> <li>System administrators can power on, restart, and power off a client computer from a remote location.</li> <li>Enables cost-effective power consumption when the administrator needs to distribute software, perform security management, or update the ROM.</li> </ul>
ROM Based Setup (F10) and Start-up Diagnostics	Yes
Support Software CD & WWW	Yes

Other Features	
ACPI-Ready Hardware	Advanced Configuration and Power Management Interface (ACPI).
	<ul> <li>Allows the system to wake from a low power mode.</li> <li>Controls system power consumption, making it possible to place individual cards and peripherals in a low-power or powered-off state without affecting other elements of the system</li> </ul>

Serviceability Features of System	
Access panel	Tool-less, one-handed
Optical drives	Tool-less
Floppy drive	Tool-less
Hard drives	Tool-less
Expansion cards	Tool-less
Green user touch points	Yes, on tool-free internal chassis mechanisms
Color-coordinated cables and connectors	Yes
Memory	Tool-less, can be upgraded without removing any internal components
System board	Tool-less removal
Dual Color Power and HD LED on Front of Computer (Indicates Normal Operations and Fault Conditions)	green – normal red – fault
System/Emergency ROM Flash Recovery with Video	Recovers corrupted system BIOS.
Configuration Record SW	Yes
Over-Temp Warning on Screen (Requires IM Agents)	Yes

### Technical Specifications

OS CD (Restore OS CD)	Restores computer to its original factory shipping image
Restore CD	Restores the computer to its original factory shipping image
Flash ROM	Yes
3.3V Aux Power LED on System PCA	Yes
Dual Function 5V Aux Power LED (ON)/PS_ON LED (OFF) on System PCA	Yes
Diagnostic Power Switch LED on board	Yes
Clear Password Jumper	Yes
Clear CMOS Button	Yes
CMOS Battery Holder for easy Replacement	Yes
Processor ZIF Socket for easy Upgrade	Yes
DIMM Connectors for easy Upgrade	Yes
NIC LEDs (integrated) (Green & Amber)	Used to determine NIC status
ASF 1.0 support (Alert Standard Format)	Industry-standard specification for network alerting in operating system-absent environments
Dual function front power switch	Also acts as a reset switch when held for 4 seconds

### Service and Support

On-site Warranty and Service (Note 1): This three-year, limited warranty and service offering delivers three years of on-site, next business-day (Note 2) service for parts and labor and includes free telephone support (Note 3) 24 x 7. Global coverage (Note 2) ensures that any product purchased in one country and transferred to another, non-restricted country will remain fully covered under the original warranty and service offering.

NOTE 1: Terms and conditions may vary by country. Certain restrictions and exclusions apply.

NOTE 2: On-site service may be provided pursuant to a service contract between HP and an authorized HP third-party provider, and is not available in certain countries. Global service response times are based on commercially reasonable best effort and may vary by country.

NOTE 3: Technical telephone support applies only to HP-configured, HP and HP-qualified, third-party hardware and software. Toll-free calling and 24 x 7 support may not be available in some countries.

### Technical Specifications - Audio

AC97 Integrated ADI 1981B Audio

### Technical Specifications - Communications

HP Gigabit by Broadcom Connector (BCM5782) NIC Controller

Connector RJ-45

Controller Broadcom 5782 PCI LAN Controller

Memory Integrated 96Kb frame buffer memory

Data rates supported 10/100/1000 Mbps

Compliance IEEE 802.1A, 802.1P, 802.1P, 802.1Q, 802.2, 802.3, 802.3AB and

802.3u compliant, 802.3x flow control

Bus architecture PCI 2.2

Data path width 32-bit, 33/66 MHz bus interface

Data transfer mode Bus-master DMA

Hardware certifications FCC, B, CE, TUV- cTUVus Mark Canada and United States, TUV- GS Mark

for European Union

Power requirement 1.48 watts @ +3.3V AUX supply with 5V tolerance

Boot ROM support Yes

Network transfer rate 10BASE-T (half-duplex) 10 Mbps

10BASE-T (full-duplex) 20 Mbps 100BASE-TX (half-duplex) 100 Mbps 100BASE-TX (full-duplex) 200 Mbps

1000BASE-T, 1000 Mbps

Environmental Operating temperature 32° to 131° F (0° to 55° C)

Operating humidity 85% at 131° F (55° C)

**Dimensions** 4.7 x 2.0 x 0.08 in (12 x 5 x 1.9 cm)

Operating system driver Microsoft Windows NT 4.0, Microsoft Windows 98, Microsoft Windows

support

2000, Microsoft Windows XP, Linux 2.2, Linux 2.4

ppon 2000, Microsoft Windows Ar, Liflux 2.2, Liflux 2.4

Management capabilities ACPI, WOL and DMI 2.0, PXE 2.0, WfM 2.0, Broadcom mgmt utility

Alerting ASF 1.0

Kit contents Broadcom 5782, CD, Broadcom Gigabit Ethernet for HP, drivers, quick

install guide, product warranty statement

Intel Pro 1000 MT Gigabit NIC Connector RJ-45

Controller Intel 82540EM Gigabit Controller

Memory Integrated 96Kb frame buffer memory

**Dimensions** 4.4 x 2.2 x 0.08 in (11.2 x 5.5 x .2 cm)

Operating system driver Microsoft Windows 2000 and XP, Red Hat Linux 7.2, 7.3 and Red Hat

support Enterprise Linux 3

Management capabilities WOL, PXE, Remote cable management

Alerting ASF 2.0

Kit contents Broadcom 5751, CD, Broadcom NetXtreme Gigabit Ethernet PCI NIC,

drivers, quick install guide, product warranty statement

### Technical Specifications - Controllers

LSI Logic LSI20320 Ultra320 SCSI single channel host adapter Bus architecture PCI-X (backward compatible with PCI)

Number of supported Up to 15 SCSI devices devices

Interface protocol 64 bit, 133MHz PCI-X

Host bus transfer rate Up to 1 MB/s

SCSI data transfer rate Up to 320 MB/s per channel

SCSI Bus Wide Ultra320, Low Voltage Differential, and Ultra Wide Single-Ended

Internal connector 68-pin HD
External connector 68 pin VHDCI

**Dimensions** (H x L) 6.6 x 2.5 in (16.9 x 6.4 cm)

Approvals CE, VCCI, Canada, C-Tick, FCC class B, UL 94VO

Operating system support Microsoft Windows XP

Kit contents Controller card, driver CD, LED cables, user documentation and warranty

card.

Adaptec SCSI RAID 2120S Card Dimensions (H x D)  $2.5 \times 6.6$  in  $(6.4 \times 16.8 \text{ cm})$  Low profile card

**RAID level** 0, 1, 10, 5, 50, JBOD

Data Transfer RateUp to 320 MB/sCache Memory64 MB (onboard)Device SupportUp to 15 SCSI devicesBus Type64-bit/66 MHz PCI

(Also support 32-bit/33 MHz PCI)

Internal Connectors
One 68-pin high-density
External Connectors
One 68-pin VHDCI

System Requirements Intel PC or equivalent with available PCI slot

Operating Temperature 32° to 131° F (0° to 55° C)

Power Requirements 4 amps @ +5V

Operating System

Support

Other Optimized disk utilization

Online RAID Level Migration
Online capacity expansion

Immediate RAID availability (background initialization)

Windows 2000 Professional, Windows XP Professional

S.M.A.R.T. support

Kit Contents Controller card, driver CD, LED cables, user documentation and warranty

card.

Rate (Maximum)

Buffer 8 Mbytes

Seek Time (typical reads, Single Track 0.3 msec includes controller <4.5 msec Average overhead, including Full-Stroke <11.0 msec settling)

15,000 rpm Rotational Speed Logical Blocks 143,374,738

Operating Temperature 40° to 130°F (5° to 55°C)

### Technical Specifications - Removable Storage

**USB Disk on Key Dimensions** (HxWxD) 0.9 x 0.7 x 3.9 in (2.3 x 1.8 x 9.8 cm)

**Weight** 0.05 lb (0.02 kg)

USB Specification 2.0

Transfer Rate Read-1023 KB/Sec; Write-850 KB/Sec
Storage Media Solid state flash memory, no moving parts
Power Supply USB Bus-powered, no external power required

Capacity 256 MB

#### Technical Specifications - Input/Output Devices

PS/2 OR USB '04 Standard Keyboard	Physical characteristics	Keys	104, 105, 106, 107, 109 layout (depending upon country)	
		Dimensions (L x W x H)	18.0 x 6.4 x 0.98 in (45.8 x 16.3 x 2.5 cm)	
		Weight	2 lb (0.9 kg) minimum	
	Electrical	Operating voltage	+ 5VDC ± 5%	
		Power consumption	50-mA maximum (with three LEDs ON)	
		ESD	CE level 4, 15-kV air discharge	
		EMI - RFI	Conforms to FCC rules for a Class B computing device	
		MicrosoftPC 99 - 2001	Functionally compliant	
	Mechanical	Languages	38 available	
		Keycaps	Low-profile design	
		Switch actuation	55-g nominal peak force with tactile feedback	
		Switch life	20 million keystrokes (using Hasco modified tester)	
		Switch type	Contamination-resistant switch membrane	
		Key-leveling mechanisms	For all double-wide and greater-length keys	
		Cable length	6 ft (1.8 m)	
		Microsoft PC 99 - 2001	Mechanically compliant	
		Acoustics	43-dBA maximum sound pressure level	
	Environmental	Operating temperature	50° to 122° F (10° to 50° C)	
		Non-operating temperature	-22° to 140° F (-30° to 60° C)	
		Operating humidity	10% to 90% (non-condensing at ambient)	
		Non-operating humidity	20% to 80% (non-condensing at ambient)	
		Operating shock	40 g, six surfaces	
		Non-operating shock	80 g, six surfaces	
		Operating vibration	2-g peak acceleration	
		Non-operating vibration	4-g peak acceleration	
		Drop (out of box)	26 in (66 cm) on carpet, six-drop sequence	
		Drop (in box)	42 in (107 cm) on concrete, 16-drop sequence	
	Operating system support	ort Microsoft Windows XP Professional, Microsoft Windows XP Professional Edition, Red Hat Enterprise Linux Workstation 3		
	Approvals	UL, CSA, FCC, CE Mark, TUV, TUV GS, VCCI, BSMI, C-Tick, MIC		
	Ergonomic compliance	ANSI HFS 100, ISO 9241	-4, and TUVGS	
	Kit contents	Keyboard, keyboard softwa and comfort	are media, installation guide, warranty card, safety

Option Kit contents

16X DVD±R/±RW Drive, InterVideo WinDVD, InterVideo WinDVD Creator, Roxio Easy Media Creator, Dantz Retrospect Express Backup Software,

installation guide, and DVD+R media.

NOTE: This DVD writer kit does not include any software for burning DVDs on Linux. DVD burning is supported with the 'growisofs' command. CD burning is supported with the 'cdrecord' command. Red Hat Enterprise Linux WS 3 distribution includes both 'cdrecord' and 'growisofs'. Red Hat Linux 7.2, 7.3, 8, 9.0 distributions only include 'cdrecord'. Therefore DVD burning is

only supported on WS 3.

Form Factor 16X DVD+/-RW, Dual-5.25-inch, half-height, tray-load

Operating Systems

Supported

Microsoft Windows XP Professional,

Microsoft Windows XP Professional x64 Edition

#### Technical Specifications - Optical Devices

**Supplied Software** (for Windows XP)

Roxio Cineplayer Movie Playback

Roxio Digital Media Plus: Create or copy CDs and DVDs, including music

and data CDs, and data DVDs Roxio MyDVD for DVD authoring

Dantz Retrospect Express: Back up systems to CD, DVD, or tape media NOTE: LightScribe Direct Disc Labeling is supported only on 32-bit Windows XP in the launch timeframe for the xw4300. Support for Windows XP Professional x64 Edition is anticipated to be available some time after the launch, and will require software updates. There is no support for LightScribe labeling under Linux. The drive will operate as a DVD writer under these other operating systems, but will not be available in software applications as a LightScribe "printer".

NOTE: This DVD writer kit does not include any software for burning DVDs on Linux. DVD burning is supported with the 'growisofs' command. CD burning is supported with the 'cdrecord' command. Red Hat Enterprise Linux WS 3 distribution includes both 'cdrecord' and 'growisofs'. Red Hat Linux 8, 9.0 distributions only include 'cdrecord'. Therefore DVD burning is only supported on WS 3.

#### Technical Specifications - Graphics

NVIDIA Quadro NVS 280 Form Factor ATX

(PCI)

**Graphic Controller** Integrated Quadro 280 2-D graphics processor unit (GPU)

Integrated into the Quadro GPU VGA controller

Bus type PCI

**RAMDAC** Dual 350 MHz

Memory 64 MB DDR with frame buffer and Texture storage

Connector Single High-density Flex Connector

**Dimensions** Low-profile, 2.586 x 6.6 in (6.57 x 16.76 cm)

Controller clock speed 275 MHz

Color planes 32-bit color buffer

Overlay planes 1 16-bit Video overlay plane

Maximum vertical refresh 120 Hz

rate

350 MHz Maximum pixel clock

Multi-monitor support Dual analog or digital monitors

Single DVI Support Yes **Dual DVI Support** Yes

High-definition Video Processor (HDVP)

Full-screen, full-frame video playback of HDTV and DVD content

DVD-ready motion compensation for MPEG-2

Independent hardware color controls for video overlay Hardware color-space conversion (YUV 4:2:2 and 4:2:0)

IDCT motion compensation

5-tap horizontal by 3-tap vertical filtering

8:1 up/down scaling

Available graphics drivers Microsoft Windows 2000 and Microsoft Windows XP (Provides full native

Dual View mode, Span or Big Desktop mode, and Clone mode)

Maximum Resolution DVI-I output - drives digital display at resolutions up to 1600x1200 @ 60Hz

Internal 400MHz RAMDACs - drives dual analog displays up to 2048x1536

@ 75Hz each

Technical Specifications - Graphics

NVIDIA Quadro FX 1400 Form Factor

**PCI-Express Graphics** 

Controller

ATX, 4.376 x 8.5 in (11.12 x 21.59 cm)

Single slot

Graphics Controller NVIDIA NV41GL

Bus Type PCI-Express x16, <75W power consumption

RAMDAC Dual 400 MHz integrated

Memory 128 MB 300 MHz DDR SDRAM unified frame buffer, Z-buffer and Texture

storage

19.2 GB/s graphics memory bandwidth

Connectors 2 DVI-I analog/digital monitor outputs, 1 3-pin Mini DIN stereo output

Multi-monitor support Dual integrated analog display controllers supporting up to two analog

displays at 2048x1536 @ 85Hz on both displays.

Additional product

features

128 KB BIOS 3.3V Flash ROM reprogrammable by SW

Hardware accelerated Overlay Planes

Hardware accelerated two-sided lighting

Hardware accelerated antialiased points and lines

Quad-buffered Stereo

3D Volumetric Texture support

Hardware accelerated Occlusion Culling Scalable Link Interface (SLI) technology

Compliant with Microsoft/Intel PC2001 Workstation requirements Video Timings compliant with VESA DMT 1.0 and VESA GTF 1.0

specifications

DDC2B+ Monitor support on all OS platforms

ACPI Version 1.0b Power Management support (all modes) Fully programmable GPU (OpenGL1.5/DirectX 9.0c class)

Shading architecture Fully programmable GPU (OpenGL1.5/DirectX 9.0c class)

Long fragment programs (up to 65,536 instructions) Long vertex programs (up to 65,536 instructions)

Looping and subroutines (up to 256 loops per vertex program)

Dynamic flow control Conditional execution

Optimized compilers for Cg, OpenGL shading language, and Microsoft

HLSL

Supported graphics APIs OpenGL 1.5 ICD with immediate mode support for all OGL primitive types

DirectX 9.0c

Available graphics drivers HP-tested: Microsoft Windows XP, Windows 2000 and Linux

HP qualified drivers may be preloaded or available from the HP support

Web site:

http://welcome.hp.com/country/us/eng/software\_drivers.html.

Maximum Resolution Dual DVI-I output – drives dual digital displays at resolutions up to

1900x1200 @ 60Hz

Internal 400MHz RAMDACs – drives dual analog displays up to 2048x1536

@ 85Hz each

the HP Desktop Access Center QuickSpecs.

Technical Specification	ons - Monitors		
	Other	Accessories Included	VGA to VGA cable – connects the graphic card's VGA analog connector to the monitor's input #1 (VGA analog) connector
			VGA to DVI-I cable – connects the graphic card's VGA connector to the monitor's input #2 (DVI-I analog) connector
			DVI-D to DVI-I cable – connects the graphic card's DVI-D digital connector to the monitor's input #2 (DVI-I digital) connector
		User Guide Languages	English, B. Portuguese, French, LA Spanish, Korean, S. Chinese, T. Chinese, Bahasa, Japanese, Danish, Finnish, German, Norwegian, Spanish, Swedish, Greek, Polish, Russian, Slovenian, Turkish
		Warranty Languages	English, Canadian French, LA Spanish, Brazilian Portuguese, Danish, German, Castilian Spanish, French, Italian, Dutch, Norwegian, Finnish, Swedish, Bahasa Indonesian, Korean, T. Chinese, S. Chinese
		Color	Carbonite/Silver
		VESA External Mounting	Yes (Standard 4 hole pattern, 100 mm)
		Kensington Lock-Ready	Yes
Certification and Compliance		*Energy Star Compliant, F Mark), ISO 9241-3,7,8 V Guidelines, Mexican NON MPR-II Compliant, Nordic PC2001 Compliant, PC99 Approval, TCO 03 (emissi Listed, VCCI Approvals, W Microsoft Windows 2000, * Energy Star Compliant a	
	Service and Warranty		abor, and on-site service, including backlight.  n. Certain restrictions and exclusions apply.  vice for details.
HP Flat Panel Monitor L2335	Panel	Type Viewable Image Area (diagonal)	23-inch Active Matrix TFT (thin film transistor) 23 in (58.4 cm)

(diagonal)

Screen Opening 19.53 x 12.24 in (49.6 x 31.1 cm)

 $(W \times H)$ 

Viewing Angle (typical)\* Up to  $170^{\circ}$  H/170° V (10:1 minimum contrast

ratio)

Brightness (typical)\* Up to 250 nits  $(cd/m^2)$ 

Contrast Ratio (typical)\* Up to 500:1

Response Rate (typical)\* 16 ms (typical, rise + fall)

Pixel Pitch 0.258 mm

Color Depth Support 16.7 million colors

Technical Specifications - Monitors

\* All specifications are provided by the component manufacturers. Performance specifications represent the highest specification of all HP's component manufacturers' typical level specifications for performance. Actual performance may vary either higher or lower.

On Screen Display (OSD) Buttons or Switches Controls

PiP (Picture in Picture), Input Select, Auto Adjust, OSD Up, OSD Down, OSD Menu Select, Power

English, French, German, Spanish, Italian Languages

**User Controls** Brightness, contrast, positioning, color

> temperature, individual color control, serial number display, full screen resolutions, clock, clock phase, video picture-in-picture (size and position), input selection (includes separate direct access key for dedicated swap between inputs 1

and 2), factory reset

Signal Interface/ **Performance** 

Video Input

Horizontal Frequency

30 to 94 kHz (VGA input); 30 to 92 KHz (DVI input) (for modes with pixel clock less than 157

MHz)

Vertical Frequency 48 to 85 Hz (VGA and DVI input)

**Graphics Controller** Pixelworks PW172

Native Resolution 1920 x 1200 @ 60 Hz (recommended)

Preset VESA Graphic 1920 x 1200 @ 60Hz

Modes (non-interlaced) 1600 x 1200 @ 60 Hz, 75 Hz

1280 x 1024 @ 60 Hz, 75Hz, 85 Hz

1280 x 960 @ 60 Hz 1152 x 900 @ 66 Hz

1024 x 768 @ 60 Hz, 75 Hz, 85 Hz

800 x 600 @ 60 Hz, 75Hz 640 x 480 @ 60 Hz, 75 Hz

Text Mode 720 x 400 @ 70 Hz

Mac Mode 1152 x 870 @ 75 Hz and 832 x 624 @ 75 Hz

Sun Mode 1152 x 900 @ 66 Hz

Maximum Pixel Clock

Speed

202 MHz (VGA input); 162 MHz (DVI input)

User Programmable

Modes

Yes, 10

Anti-Glare Yes Anti-Static Yes **Default Color** 6500 K

**Temperature** 

Plug and Play Yes

> Input Signal Five connectors, including one 15-pin mini D-

> > sub VGA, one DVI-I (VGA analog and digital input), one composite video, one s-video,

component video

Input Impedance 75 ohms  $\pm 10\%$ 

Sync Input Separate sync (HSYNC/VSYNC); composite sync,

Sync on Green
